

STREETER AND ASSOCIATES

Design: ALTUS Architecture + Design
Construction: Streeter and Associates
Photography: Peter Kerze

This project was designed for a high – end residential contractor to develop their growing business. The site is situated along Minnetonka Boulevard in Deephaven amongst adjacent small-scale commercial buildings. The goal for the architecture was to express a hierarchy of scale and materiality to establish a relationship with the context and community. The building reflects a sensitive scale with timeless materials with extremely well crafted details, depicting the quality and skill of Streeter and Associates work.
